EDITORIAL

TOBACCO CONTRACTS

It is becoming increasingly evident that tobacco growers should sign the government contract.

The editor of this paper feels that the huge revenue that Uncle Sam gets from tobacco is ample basis for the government to show special attention to the leaf grower. No other agricultural crop brings in tax revenue in comparison to tobacco and that fact should merit consideration in the AAA program.

We note with pleasure the announcement in our columns last week that a special payment will be made to those signing the 1936 tobacco contracts. We are told that were all the growers in this county to sign, this payment alone would amount to $33,000 a year, enough to pay the farmers tax bill.

The new contracts are here now. Drop by and have a frank talk with your county agent about signing.

LET'S ADMIT IT

This paper remembers what an effort was made by the press of the nation back in 1929 and 1930 to keep from admitting there was depression on. That, in retrospect, was a commendable effort, as it no doubt was very influencial in heading off a panic.

But, if we were slow to admit a depression, surely we should not be slow to admit the end of the depression. We feel that the usual stock taking that marks each end of a year, should be featured this time by proclaiming once and for all the return of normal conditions.

Business is normal here in Appomattox and we convinced that all over the state the same is so.

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it When you feel any of its disagreeable symptoms coming on. . . "We have used Thedford's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for billousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results." Sold in 25-cent packages.

Let's make it a real Christmas by heralding the official end of the depression. The popular custom in 1930 to '33 was "I can't do this, that or the other, because my bank is closed." But that is water under the bridge now. Let's forget the doldrums and face the pleasant reality of more generous times.

How your MONEY WORKS FOR YOU IN A *Checking Account*

When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'doless.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." . . . If Cardui does not help YOU, consult a physician.
